

Intellectual Property Declaration for TINOSI, Inc.

1. Corporate Identification and Declaration Authority

TINOSI, Inc. (the "Corporation") hereby formally declares and affirms its status as the sole and exclusive owner of the intellectual property (IP) described within this declaration. This document is executed to serve as constructive notice of proprietary rights regarding training methodologies, educational concepts, and specialized terminology developed by and for the Corporation. All materials, curricula, and nomenclature were created as "works made for hire" or through specific assignments of rights by its primary subject matter expert, Jason Call, to the Corporation, thereby establishing an unbroken chain of title. This declaration serves to protect these assets under all applicable statutory and common law intellectual property frameworks.

2. Declaration of Protected Training Concepts

TINOSI, Inc. has developed a proprietary pedagogical framework designed to mitigate the systemic risks associated with industrial safety education. The foundational philosophy of this framework is to "fill the gap between 'compliant' and 'safe'."

It is the position of the Corporation that standard OSHA Confined Space curricula, while satisfying baseline regulatory requirements, are deficient in providing operational competence regarding gas monitoring instrumentation. Consequently, the protected intellectual property of TINOSI, Inc. includes the unique and specific combination of a "confined space refresher/awareness" curriculum integrated seamlessly with "brand-specific gas monitor training." This proprietary integration ensures that learners transition from theoretical regulatory awareness to functional competence with brand-specific units and proprietary hardware utilized in hazardous environments.

3. Registry of Copyrighted Terminology

The following terms and technical concepts represent the exclusive copyrighted property of TINOSI, Inc. This registry is intended to be exhaustive and provides notice that the following nomenclature is protected under international copyright law.

The Four Calibration Situations©	Hezekiah Effect©	Hard Zero©
Gas Detection Competence©	Gas Detection Competency©	Gas Detection Competent Person©
Gas Detection Competent Person Training©	Gas Detection Training©	Gas Detector Awareness©
Gas Detector Awareness Training©	Gas Detector Competence©	Gas Detector Competence Training©
Gas Detector Competency©	Gas Detector Competency Training©	Gas Detector Competent Person©
Gas Detector Competent Person Training©	Gas Detector Operation©	Gas Detector Operation Training©
Gas Monitor Awareness©	Gas Monitor Awareness Training©	Gas Monitor Competence©
Gas Monitor Competence Training©	Gas Monitor Competency©	Gas Monitor Competency Training©

4. Proprietary Methodology and Training Delivery

The scope of the intellectual property protections held by TINOSI, Inc. extends to the specific structure, sequence, and delivery of its specialized safety curriculum. These protections apply across all delivery modalities, including:

- **Online/On-Demand:** Proprietary self-paced digital instructional modules.
- **In-Person:** Traditional classroom instruction and hands-on laboratory exercises.
- **Live Remote:** Synchronous training delivered via digital telecommunication platforms.

The Corporation's "Gas Monitor Competence" and "Instrumentation Competence" programs utilize a proprietary pedagogical method characterized by the integration of practical, scenario-based learning with specific hardware operation. This protected methodology is designed for application across diverse brand-specific units, ensuring technical proficiency that exceeds standard industry compliance.

5. Legal Ownership and Usage Restrictions

Notice is hereby given that all terms, concepts, curriculum structures, and methodologies described herein are the exclusive property of TINOSI, Inc.

- **Reservation of Rights:** All rights are reserved as of 2020.
- **Prohibited Actions:** The unauthorized use, reproduction, distribution, or creation of **derivative works** based upon these protected training concepts or the listed copyrighted terminology is strictly prohibited.

- **Enforcement:** TINOSI, Inc. will vigorously pursue all available legal and equitable remedies to protect its intellectual property from infringement, including seeking injunctive relief and statutory damages where applicable.
-

6. Official Contact Information for Licensing and Inquiries

All inquiries regarding licensing, authorized use, or the scope of these protections should be directed to TINOSI Gas Monitor Competence Training through the following official channels:

- Phone: **626-209-9644**
- Email: **jason@tinosi.com**
